

Gurnee Side by Side Drop-Off Trailer

Reserve the unit now for your public education events!

Residential Fire
Sprinkler Pump

Simulated NFPA 13D Riser

200 Gallon Tank

Improvements and upgrades to the roll-off trailer were recently completed by F.E. Moran Sprinkler Company out of Northbrook and NIFSAB-NI Fire Sprinkler Advisory Board. A 200 gallon tank and 1 and ½ horsepower residential pump and riser set-up following the NFPA 13D standard for rural water supplies was installed to allow more mobility and independence with the sprinkler burn demonstrations. It also acts as a static display for educational purposes in between live burns.

To sign up for the trailer go to www.firesprinklerassoc.org and click on “Sprinkler Trailer and Demonstration Units”, go to the bottom of the page and use the Gurnee/Lake/McHenry County “Side By Side” Burn Demo Unit Link. Here you can directly link to the Lake County Fire Chiefs @ www.LakeCountyFireChief.Org and follow the on line instructions.

After scheduling, please contact the Gurnee Fire Dept. with any questions you may have and to ensure both a tow vehicle and the trailer are available. You can call:

Captain John Kavanaugh (847) 244-8631 -For coordination issues
John Rikje (224) 588-6482

The Roll-Off Trailer is stored at Gurnee Fire Station # 1:

4580 Grand Avenue
Gurnee, IL 60031
